EXPERIENCE

Production Manager / The Pressroom - Phoenix, AZ   01/2018 - Current

Implementing software and physical technologies into the pre existing system on a daily basis. For bands like Rage Against the Machine to groups like Wu Tang Clan. Running and repairing speakers, lighting and video equipment. Along with servicing the company webpage to improve web flow interactions. Managing large to small scale teams in a high stress fast paced environment.

Owner / Umbrella A/V Productions - Phoenix, AZ   06/2017 - Current

Sell and provide services such as multi-cam broadcasting to corporate companies during a global pandemic. To companies like Redbull for their product distribution webinar. Along with photography and audio engineering services for weddings, music festivals and corporate meetings. Communicate with clients on wants and needs for the end product. Collaborate with teams if necessary to help accomplish high scale productions efficiently.

Tech Lead / Unity of Phoenix - Phoenix, AZ   03/2017 - Current

Manage and produce all content for websites and live services. Train teams on how to use the in house audio, lighting and video production system. Work closely with management to ensure teams are following best practices and meeting their expectations for video, photography and live show experience.

EDUCATION AND TRAINING

Scottsdale Community College - Scottsdale, AZ
Associate of Science: Audio Production

University Of Arizona - Tucson, AZ

Full Stack certificate:: Computational Science
